

Appendix 2: Manitoba First Nations Diabetes Committee (MFNDC)

MFNDC meets up to 4 times per year to plan and develop activities for the ADI program. The purpose of MFNDC is to address the pandemic rate of diabetes in Manitoba First Nations as a Public Health issue based on the Manitoba First Nations Strategy, 'A Call to Action'. MFNDC will also facilitate linkages, communication and information sharing between First Nations organizations and relevant groups regarding diabetes in Manitoba First Nations. If you have any requests, input or feedback on the program or resources, you may contact the ADI representative in your area.

Committee Member	Tribal Council or community	Phone # / fax #
Monique Champoux	SERDC	956-7500 / 956-7382
Grace McDougall	FARHA	947-2397 / 982-3359
